Major General William E. Odom, USA
Assistant Chief of Staff for Intelligence
Department of the Army
Washington, DC 20310

Dear General Odom,

On behalf of the Science and Technology Advisory Panel, I want to thank you for finding the time to join us for lunch on 15 September 1982. Your observations regarding Army intelligence requirements and your comments on combat operations and doctrine were extremely interesting, insightful, and of value to each member of the Panel. As you may know, the Panel met with Bill Casey a few hours after we talked to you and I met with him again, in his office, on 17 September 1982. During both meetings, I conveyed to him our belief that the various intelligence issues relating to battlefield support are extremely important and worthy of attention and resource allocation at the highest priority.

Once again, many thanks for sharing your views with us. If the STAP can be of any assistance to you, please do not hesitate to contact me.

Sincerely,

STAT
